EXAMINER'S COMMENTS

Terminal Disclaimer

1. The terminal disclaimer filed on March 28, 2006 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent No. 6,491,765 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that none of the references alone or in combination teach or suggest a method of making a rare earth-iron-boron alloy powder comprising preparing a rare earth-iron-boron alloy material that includes a chilled structure that constitutes about 2 to about 20 volume percent of the rare earth-iron-boron alloy material, coarsely pulverizing the rare earth-iron-boron alloy material by hydrogen occlusion to obtain a coarsely pulverized powder, finely pulverizing the coarsely pulverized powder and removing at least some of the fine particles having particle sizes of 1.0 micron or less from the finely pulverized powder, thereby reducing the volume fraction of the fine powder particles having a particle size of about 1 micron or less and coating the surface of the remaining powder particles with a lubricant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
